

March 31, 2015

Board of Directors
North and East Lubbock Community Development Corporation
Lubbock, Texas

We have audited the financial statements of North and East Lubbock Community Development Corporation and Subsidiary (the "Organization") for the years ended September 30, 2014, 2013, and 2012 and have issued our reports thereon dated March 31, 2015. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audits. We have communicated such information in our engagement letter dated July 22, 2014. Professional standards also require that we communicate to you the following information related to your audits.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Organization are described in Note 1 to the financial statements. As described in Note 1, the Organization began consolidating North and East Lubbock Investment, Inc. with NELCDC's financial statements during the year ended September 30, 2012. We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were the functional allocation of certain expenses and the receivable due from an insurance company.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were Note 1 - Summary of Significant Accounting Policies, Note 3 - Other Assets and Note 5 - Economic Dependency.

Difficulties Encountered in Performing the Audit

The completion of our audit was delayed because of lack of availability of certain information, delays in commencing the audit, issues that arose during the audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated March 31, 2015.

Management Consultations with Other Independent Accountants

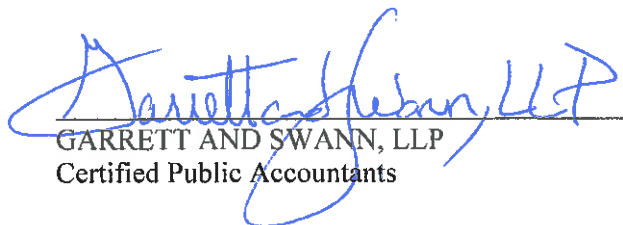

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Organization's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

We issued a letter dated March 31, 2015 communicating material weaknesses in internal controls we found during the audits. We followed that letter up with an additional correspondence offering further details of the material weaknesses in internal control identified along with suggestions to correct the material weaknesses in internal controls. We ask that you review these letters and implement procedures to correct the issues identified.

This information is intended solely for the use of the Board of Directors and management of the Organization and is not intended to be and should not be used by anyone other than these specified parties.
