### NELCDC ADOPT-A-SPOT NEIGHBORHOOD REVITALIZATION INITIATIVE

The North & East Lubbock CDC (“NELCDC”) will host two (2) upcoming events for the Adopt-a-Spot Neighborhood Revitalization Initiative.

The **February 2, 2018** event will be held at the Mae Simmons Community Center. We invite the community at-large and encourage faith-based institutions, companies, banks, civic groups, and city residents to attend the **“Adopt-a-Home” event**. Throughout 2017, the NELCDC worked to implement a physical and social revitalization plan for the Parkway Cherry-Point and Jackson-Mahon neighborhoods, which resulted in the development of two action plans (one for each neighborhood). Visit <http://www.nelcdc.org/adopt-a-spot.html> to find both draft neighborhood action plans as well as other program information. The plan to **rehab almost 40 homes on March 3, 2018, the Community Service Day**, will be the culminating event of a year-long effort to research, organize, and assess the needs in both neighborhoods.

NELCDC would like to encourage groups interested in volunteering to “adopt-a-home” to register for the Feb. 2 event by [clicking here](#). A full plan for the **March 3, 2018 Community Service Day** event will be presented at the **February 2, 2018 Adopt-a-Home event**. Additionally, rehab packets for each home that has been deemed eligible for home repairs through the Adopt-a-Spot program will be available for volunteer groups to pick-up (or adopt) at the Feb. 2 event. Volunteers will have one month to plan to execute the repairs on the March 3 Community Service Day. Please find the promotional flyer for both events attached.

Please direct all questions regarding these upcoming events to Monique Coleman, NELCDC Executive Director.
